

Epping Forest Public Transport Task and Finish Group

Terms of Reference

In the following terms and conditions the term public transport services is used. This refers bus, rail, underground, taxi and community transport.

1. To establish whether public transport services meet the needs of the local communities
2. To establish whether public transport services are integrated effectively
3. To monitor the effectiveness of the information about transport
4. To monitor the level of antisocial behaviour on public transport
5. To establish how public transport services meet the needs of disabled passengers
6. To identify examples of good practice
7. Work in partnership with group members to establish ways of increasing the numbers of journeys taken by public transport. This will lead to
 - a. reduced isolation
 - b. reduced carbon footprint
 - c. reduced the number of people killed or seriously injured
8. To feed findings into relevant projects such as the Sustainable Community Development Strategy, Area Review, LDF and East of England Plan.
9. Encourage all sustainable modes of transport, including walking and cycling.
10. Try to influence the services provided by commercial operators, including Transport for London.
